MESSAGE FROM THE BOARD

The Board of Trustees of the Commercial International Bank (CIB) Foundation is proud to present the CIB Foundation's 2021 Activities Report. This report highlights the Foundation's commitment to the Egyptian community through the programs and initiatives it has supported over the course of the year.

CIB Foundation is a non-profit institution focused on enhancing the quality of health and nutrition services in Egypt, with special attention paid to underprivileged children who lack access to quality healthcare through sustainable projects with multiple, well-established partners.

Founded in 2010 to expand the corporate social responsibility activities CIB had been engaged in up to that point, the foundation provides not only donations and monetary assistance, but also monitoring and follow-up on projects to ensure the maximization of allocated resources and the achievement of set goals.

Mission and Vision

VISION AND MISSION

CIB Foundation seeks to ease the burden on families in need of affordable health care services. In pursuit of this vision, the CIB Foundation is committed to enhancing the quality of services in our partner institutions to provide the best possible care for young Egyptians.

A productive community requires a healthy citizenry, and CIB Foundation strives to ensure that Egyptian children are receiving the care they deserve to lead the healthiest lives possible.

CIB Foundation aims at effectively and sustainably attaining the widest community reach targeting those most in need through working with public, private, and non-governmental healthcare providers.

AWARDS

Over the years, CIB Foundation has been recognized for the work it does with local communities, receiving multiple awards that attest to our success in creating meaningful and sustainable impact such as MEED's "Best CSR Initiative in Asia and Middle East" in 2021, African Banker Awards "Sustainable Bank of the Year" in 2021, Euromoney's "Middle East's Best Bank for Corporate Responsibility" in 2019, "Most Socially Responsible Bank in North Africa" by Banker Africa in 2015, and EMEA Finance 2014 Pan-Africa's "Corporate Social Responsibility" award.

BOARD OF TRUSTEES

Mr. Hisham Ezz Al-Arab Chairman

Hisham Ezz Al-Arab is the founder and chair of HE Advisory. With over 40 years of experience as an international banker across Europe, the Middle East, and Africa, he advises corporations on Growth Strategies, Resources Mobilization and Financial Risk Management. He also provides fundraising advice and strategic counsel to start-up fintechs.

Mr. Ezz Al-Arab is the former Chairman and Managing Director of Commercial International Bank - Egypt (CIB), where he served in that role from 2002 to 2020. During his tenure, he transformed the institution from a wholesale lender with a market capitalization of EGP 1 billion into Egypt's largest private-sector bank with a market capitalization of EGP 100 billion. As the blue-chip component of the Egyptian Exchange with ADRs and GDRs listed on the New York and London Stock Exchanges, the stock is the global investment community's preferred proxy for Egypt and a benchmark for the banking industry in emerging markets.

His leadership was committed to cultivating and perpetuating a culture of entrepreneurial spirit and meritocracy and to global best practices with respect to corporate governance and risk management. Equally committed to the bank's global responsibility, in 2013, Mr. Ezz Al-Arab introduced sustainability and gender

equality initiatives. CIB was the first bank in Egypt to issue a sustainability report and to join the signatories for the United Nations Environment Program Financial Initiatives: Principles for Responsible Banking. CIB was also included in the Low Carbon Select Index in the Middle East and North Africa (MENA). In 2019, CIB was named to the Bloomberg Gender Equality Index, the only company in Egypt and Africa to be listed. He also led the digital transformation of the bank's processes and practices, including the establishment of a Data Analytics unit, the first such effort at an Egyptian bank. This unit subsequently advised the Egyptian government regarding data collection and analysis. Recognizing the potential opportunities in Africa, particularly East Africa as a trade hub, Mr. Ezz Al-Arab led the transaction to open CIB Mayfair Bank in Kenya to provide trade finance and credit facilities for the bank's Egyptian mid-sized corporate customers looking to expand into Africa. He was also instrumental in a fintech initiative for youth in East Africa.

Mr. Ezz Al-Arab has been recognized by a number of global publications for his leadership and the bank's performance. He was named "Best CEO in Egypt and Africa" by EMEA Finance in 2014.

In 2016 Euromoney recognized his "Outstanding Contribution to Financial Services in the Middle East" CIB was awarded Euromoney's Best Bank in Global Emerging Markets, the first bank in Egypt and MENA to receive this award. The same year they were awarded

Best Bank in the Middle East. In 2018, CIB received the Best Bank for Social Responsibility in the Middle East. CIB was named Best Emerging Markets Bank by Global Finance in both 2018 and 2020.

Mr. Ezz Al-Arab is the Chair of the CIB Foundation, which he founded in 2010. The CIB Foundation has built strategic partnerships with healthcare providers from the government, private, and non-government sectors focused on the health and wellbeing of underprivileged children throughout Egypt. As a result of its efforts, the Foundation has impacted the lives of more than 3.2 million children and is a leading Egyptian voice for universal access to quality healthcare extended to underprivileged children.

Mr. Ezz Al-Arab is a Member of the Institute of International Finance (IIF) in Washington, member of the Emerging Markets Advisory Council (EMAC) and board member of Ripplewood Advisors MENA. He is also former Chairperson of the Federation of Egyptian Banks, a former board member of the American University in Cairo (where a scholarship in his name was established for a dedicated undergraduate student), Smart Africa, and Fairfax Africa.

Prior to joining CIB in 1999, Mr. Ezz Al-Arab spent his career as a banker at Merrill Lynch, J.P. Morgan and Deutsche Bank in London and the Middle East.

Dr. Nadia Makram Ebeid
Member

Dr. Nadia Makram Ebeid is presently the Executive Director of the Centre for Environment and Development for the Arab Region and Europe (CEDARE), an international diplomatic position she assumed in January 2004.

Dr. Makram Ebeid was Egypt's first Minister of the Environment and the first female minister to hold this position in the Arab World. Some of her most notable achievements were raising environmental awareness through mainstreaming environmental considerations into Egypt's national development policies as well as declaring the River Nile free from polluted industrial wastewater discharge.

In addition to being a former member of CIB's Board of Directors, Dr. Makram Ebeid is also the chairperson and board member of various prestigious institutions, and the holder of more than fifty international and national awards.

Mr. Amr El Ganainy
Vice-Chairman

Mr. Amr El Ganainy joined Commercial International Bank (Egypt) as General Manager of the Financial Institutions Group. In January 2010, he assumed his role as President of the Global Customer Relations Department before taking on his current role as Chief Executive Officer, Institutional Banking.

Mr. El Ganainy is a Board Member of Misr for Central Clearing, Depositary and Registry Company and the Egyptian Sport Fund. He is also the General Assembly Member of Egyptair Holding Co., Honorary Chairman of both Interarab Cambist Association (ICA) and Egyptian Dealers Association (ACI Egypt) and a member of the American Chamber of Commerce in Egypt.

Mr. El Ganainy has served as Chairman of CI Asset Management Co., Commercial International Brokerage Co., Normalization Committee of Egyptian Football Association, International Securities & Services Co. (Falcon Group), and Board Member of CI Capital Holding Co., TE Data, Telecom Egypt and The Egyptian Holding Co. for Airports and Air Navigation, Executive Board Member of ACI International (The Financial Market Association), Chairman of Port Marsa Alam for Tourism Investment, Board Member of Royal & Sun Alliance Insurance Co., and the Chairman of Capital Securities Brokerage Co.

Dr. Dalia Abdel Kader
Member

Prior to joining CIB, he worked at the United Bank of Egypt as General Manager, Treasurer and Head of Correspondent Banking and was Chief Dealer of the Export Development Bank. He began his career as a dealer at Suez Canal Bank.

Dr. Dalia A. Kader spearheaded the discipline of Sustainable Finance as early as 2003. Ever since, she brought vision and passion to this domain, conceiving far-reaching organizational initiatives and seeing their implementation through. She is currently Chief Sustainability Officer of Commercial International Bank (CIB) Egypt's leading private sector bank and Board Member of the CIB foundation. She is also a member of the UNEP FI Banking Board "Principles for Responsible Banking" representing the MENA region and a member of the Net Zero Banking Alliance (NZBA) Steering Committee representing Africa. Dr. Kader is also a member of the Regional Advisory Board for Sustainable Finance. She is also Founder, Vice Chairman and Board Member of "We Owe it to Egypt" foundation. Dr Kader is also member of the Board of Trustees of CIB Foundation. She was Head of the Sustainable Development Committee at the Federation of Egyptian Banks from 2014-2020 where she managed an EGP 400 million FEB integrated Slum Development project and now she is the chairman of the Green Finance committee at the Federation of Egyptian Banks.

Sustainable Finance is a core focus for her ongoing advocacy since 2003, that entailed challenging mainstream finance, pursuing innovation, making her marks towards creating industry trends. Dr. Kader represented Egypt in the working sessions of the G20 Green Finance Study Group that issued the 2017

Green Finance Synthesis Report. In 2014, she helped launch MOSTADAM, the first platform for advancing Sustainable Finance in the Middle East with a focus on capacity building, policy advocacy and promoting sustainable products and services that initiated an industry movement in Egypt. In 2018, she participated in launching the Principles for Responsible Banking during her term at AAIB and has been appointed by the UNEP FI to promote the principles in the MENA region. Since 2009, she has been advancing the cause of Equator Principles and introduced social and environmental risk management policies and procedures in banks, along efforts to enact international frameworks within the financial industry including the PRI & the TCFD to advance sustainable finance.

Substantiated with an inter-disciplinary exposure to finance, political science, economics and sustainability, Dr. Kader conceived the concept of “Humanizing Finance” which was launched in a TEDex talk at the American University in Cairo in 2013. She also introduced and lectured a proprietary postmodern interpretation of the Marketing discipline in international platforms. Dr. Kader Initiated advocacy for sustainable finance and sustainability branding through lecturing and speaking engagements in local, regional and international conferences including the Financial Times conference “Future of Marketing” in New York in 2016. Dr. Kader holds a B.A from the American University in Cairo in 1984 (Major in Political Science & Minor in Economics), M.A. degree in Political Science from the American University in Cairo in 1989 and Ph.D. in Political Science from Cairo University in 2003 with distinction.

Mr. Rafik Madkour
Treasurer

Rafik Madkour is currently the Consultant to the CEO at CIB.

After graduating from the Faculty of Commerce at Cairo University, Mr. Madkour joined CIB in 1978, and has served in different departments of the Bank, including Book Keeping, Money Transfer, Treasury and the Dealing Room. He also served as Deputy CEO Institutional Banking and Group Treasurer. Furthermore, he served as the Consultant to the CEO at CIB.

Ms. Maha El-Shahed
Member of The Board

Ms. Maha El-Shahed – Head of Corporate and Board Affairs – CIB.
Since she joined the Bank, Ms. Maha El-Shahed has been assisting CIB senior management after obtaining her degree in Business Administration from the American University in Cairo (AUC) in 1983.

Ms. Nadia Moustafa Hosny
Secretary General

In February 2014, Ms. Hosny joined CIB Foundation Board of Trustees, and currently she is assuming the role of Secretary General. Besides, she is CIB representative as a Member in the Sustainable Development Committee at the Federation of Egyptian Banks since May 2014. She recently joined the Board of Trustees of the National Foundation for Family and Community Development in November 2021.

Prior to that, Ms. Hosny was CIB Division Head of the Centralized Banking Services, Custody and Capital Markets till October 2015. Also, she was nominated as CIB Sustainability Ambassador in November 2014, and was a member in CIB Corporate Social Responsibility team concerned with “Protecting the Green Environment” in April 2013.

Ms. Hosny graduated from the Faculty of Commerce Cairo University. She joined CIB in 1981, and worked in different departments, such as the Money Transfer Department, Central Processing Unit, as well as the Custody Operations and Bookkeeping Department.

BUDGET AND FINANCE

CIB Foundation is supported by the 1.5% of CIB's annual net profit of 2020 from the generous CIB shareholders and the donations made to its fundraising account. 100% of the proceeds are channeled towards community projects with the aim of improving child healthcare services. The Foundation seeks to ensure that its resources are spent efficiently to reach the greatest number of beneficiaries through the coordinated efforts of the Foundation's Board of Trustees, Foundation staff and CIB volunteers.

“Project Name” Partner	Purpose	Donation(EGP)
Children’s Right to Sight Program Rotary Kasr El Nile	Perform 176 ophthalmic surgeries for children	926,810.85

L’Misr Initiative Sonaa El Khier Foundation – Hayah Karima	To fund the operating costs of 42 medical convoys which will reach poverty-stricken areas in Al-Waqf, Qena	10,904,498.00

2021 PROJECTS

During 2021, CIB Foundation Board approved a number of new projects in addition to its ongoing efforts to improve the quality of healthcare services provided to children across Egypt in accordance with Egypt Vision 2030 and the UN Sustainable Development Goals.

Vision of Egypt 2030

Goal 3: Good health and well-being

Goal 17: Partnerships for the goals

CARDIOLOGY

1. ONE HEART

CIB Foundation allocated EGP 24.46 million to fund NICU and PICU with new state-of-art equipment. Since its inauguration, Al Nas Hospital, managed by Al Joud Foundation, have been a strategic partner for the CIB Foundation; the hospital operates in line with international standards, and the two units will serve approximately 2,000 children annually and offer its services free of charge to underprivileged communities.

CIB Foundation allocated EGP 10 million to cover 100 pediatric open-heart surgeries to reduce the number of children on the waiting lists and relief some of the financial burdens of the hospital. The hospital, which is managed and operated by Al Joud Foundation, is located in Shubra El Kheima and operates in line with international standards. The hospital offers its services free of charge to the underprivileged children.

2. STRONG HEARTS... STRONGER FUTURE

The Aswan Heart Center

Building on the longstanding partnership between Magdi Yacoub Foundation and CIB Foundation, the Board allocated EGP 30 million to fund 200 open heart surgeries and to purchase 345 Cath lab consumables, which will be performed in the Aswan Heart Center.

The New Global Heart Centre in Cairo

According to the data from Aswan Heart Centre (AHC), a centre of excellence, the center performs around 4,000 surgical and cardiac procedures (2,400 children) annually under international standards. However, due to the ever-increasing demand, AHC is able to address only a small number of all the complex and critical cases. To improve access to care and meet the demand for cardiac care within Egypt, Magdi Yacoub Foundation 's board has decided to establish the Magdi Yacoub Global Heart Centre in Cairo (MYGHC). The facilities in the new center will enable the medical teams to treat up to 12,000 patients per year, a three-fold increase on their current capacity.

CIB Foundation sponsored EGP 35 million over three years to establish a Pediatric Catheterization Lab that allows doctors to perform minimally invasive tests and procedures on patients with various heart conditions. The Cath lab dedicated to the treatment of pediatric patients will see around 960 children per year.

Building on the longstanding partnership between Magdi Yacoub Foundation and the CIB Foundation, the Foundation allocated EGP 20 million to fund 100 pediatric open-heart surgeries and purchase Cath lab consumables for 350 children.

3. CHILDREN WITHOUT RISK

Building on the successful collaboration with the Garden City Cosmopolitan Lions Club, the Board approved EGP 7.5 million to establish a fully equipped open-heart surgery room for children in Mabara El Maadi Hospital. It will provide health care to children with congenital heart defects and those who suffer from heart complications. This project is expected to serve approximately 720 children each year.

The Board approved EGP 3.95 million to outfit a Pediatric Intensive Care Unit in Mabara El Maadi Hospital in collaboration with Lions Club Garden City. The Club financed the construction and fishing works of the unit and the Foundation will outfit the unit with the latest medical equipment.

4. TOUCH OF HOPE

Building on the previous successful collaboration between CIB Foundation and Sporting Students Hospital, the Foundation allocated EGP 4.1 million to establish an advanced pediatric cardiac operating room with the capsule system. Through this operating room, it is expected that the hospital operates on 288 children annually while ensuring the highest levels of sterilization and hygiene. In addition, the capsule operating room will enable the hospital to perform minimally invasive and highly advanced surgeries with the utmost accuracy according to the international standards. This project will contribute to decreasing the numbers of children on the waiting lists for pediatric cardiac surgeries.

5. GIFT OF LIFE

In light of the successful collaboration between CIB Foundation, Rotary Club of Giza Metropolitan, and El Kasr El Eini Hospital, the CIB Foundation allocated EGP 4.5 million to fund the third round of 100 open-heart surgeries to be performed in El Kasr El Eini Hospital to reduce the number of children on the waiting lists and alleviate some of the financial burden on the hospital.

DENTAL & ORAL

6. LITTLE SMILE

The CIB Foundation allocated a budget of EGP 3.35 million to establish a general anesthesia unit in the Faculty of Dentistry in Beni Swef University. In the dental field, it is very hard to operate using only local anesthesia on children and toddlers; it is even harder when the patients are of special needs. Therefore, this necessitates that pediatric dentistry clinics have a general anesthesia unit. The project is expected to serve 1,000 children annually.

7. GOLDEN SMILE

The Foundation granted Suez Canal University Hospital EGP 1.8 million to purchase an outfitted mobile dental clinic. It will be able to reach children living in the poverty-stricken areas in orphanages and children with special needs. The Mobile Dental clinic includes a Mobile Clinic (Vehicle), Medical Equipment (Dental Unit, Autoclave, X-Ray machine, and more) as well as Non-Medical Equipment (Air Conditioner, Cabinet, Mini Bar Fridge, and more). It serves 600 children annually.

8. STRONG TEETH... BETTER HEALTH

CIB Foundation allocated EGP 90,000 to support the operating expenses of the maxillofacial unit in Cairo University. The Maxillofacial Unit provides treatment for children across the country, and is one of the few providers of specialized procedures. Before the center's establishment, children were treated in the general prosthodontics area with adults.

9. SUPER SMILE

CIB Foundation allocated EGP 1.25 million to fund 50 Cleft Lip and Cleft Palate Surgeries to be performed in Ain Shams University Hospitals. Rotary District 2451 has noticed during their medical convoys that this congenital/birth defect is evident in Upper Egypt. Since these defects affects the child's appearance and constitute speech difficulties, these defects hinder the children from living a normal life.

ONCOLOGY

10. 57357 FIGHTERS

Maintaining the longstanding partnership between 57357 and CIB Foundation, and to cover the increases in the cost of treatment, CIB Foundation allocated a fund amounting to EGP 30 million to be utilized in supporting the annual diagnosis and treatment costs provided by the hospital, such as conducting medical tests, examinations, chemotherapy, radiotherapy, immunotherapy, etc. This fund served 7,000 children.

Furthermore, the foundation also allocated EGP 4 million to fund key activities for the hospital's Cairo and Tanta branches, including pathology, blood banks, radiology laboratories, medication, radiotherapy, nuclear medicine, and supplies.

On the grounds of its longstanding partnership with the Children's Cancer Hospital 57357, the Foundation allocated EGP 30 million to establish the Digital Pathology Lab at the hospital. The Lab will use a computer-based technology to generate information from digitized specimen slides.

The specimen glass slides (conventional) are converted into digital slides that can be electronically shared and analyzed using a computer software. This piece of technology will increase diagnosis efficiency by rendering faster results and reducing human error. The automated lab is expected to benefit approximately 7 thousand children annually.

11. A JOURNEY OF HEALING

The Foundation Board allocated EGP 11.77 million in April 2020 to outfit the pediatric department in the Shifaa Al-Orman Hospital in Luxor. The new department allows the children to obtain the required chemotherapy and radiotherapy without the need to travel for long distances since there are very few specialized centers in treating children with cancer in Upper Egypt (in most cases children have to travel to Cairo). The travelling does not only constitute a great health hazard on the patient, but also places a great financial burden on the families. The pediatric department is expected to serve around 900 children annually.

LIVER AND KIDNEY CARE

12. KIDNEY CARE AND CURE

The Board allocated EGP 16 million to expand and outfit Sohag University Hospital's pediatric dialysis unit. As the largest unit serving children with kidney diseases in Upper Egypt, there was a pressing need for the hospital to expand. The new dialysis unit features an ICU, a plasma separation room, 16 new dialysis machines, and a central delivery system that will lower infection rates. It is expected to serve approximately 5 thousand children each year.

13. CHILDREN WITHOUT VIRUS C PROGRAM

In collaboration with the Egyptian Liver Care Society, the Foundation dedicated over EGP 5.1 million to fund the Children Without Hepatitis C program. The fund covers medications, blood tests, x-rays, medical staff training (doctors and nurses), and awareness sessions for infected children and their families.

INTENSIVE AND INTERMEDIATE CARE

14. FOR A BETTER CHILDHOOD

The Board approved a budget of EGP 1.91 million to fund 50% of the annual operating costs of the pediatric and neonatal ICU sections of Benha University hospital which were outfitted through a fund from CIB Foundation. The two units serve about 3.5 thousand of children in Qalyubia region annually. This fund will ensure the project sustainability and maintain the highest level of service provided to the children in the two units.

15.THEIR CARE... OUR RESPONSIBILITY

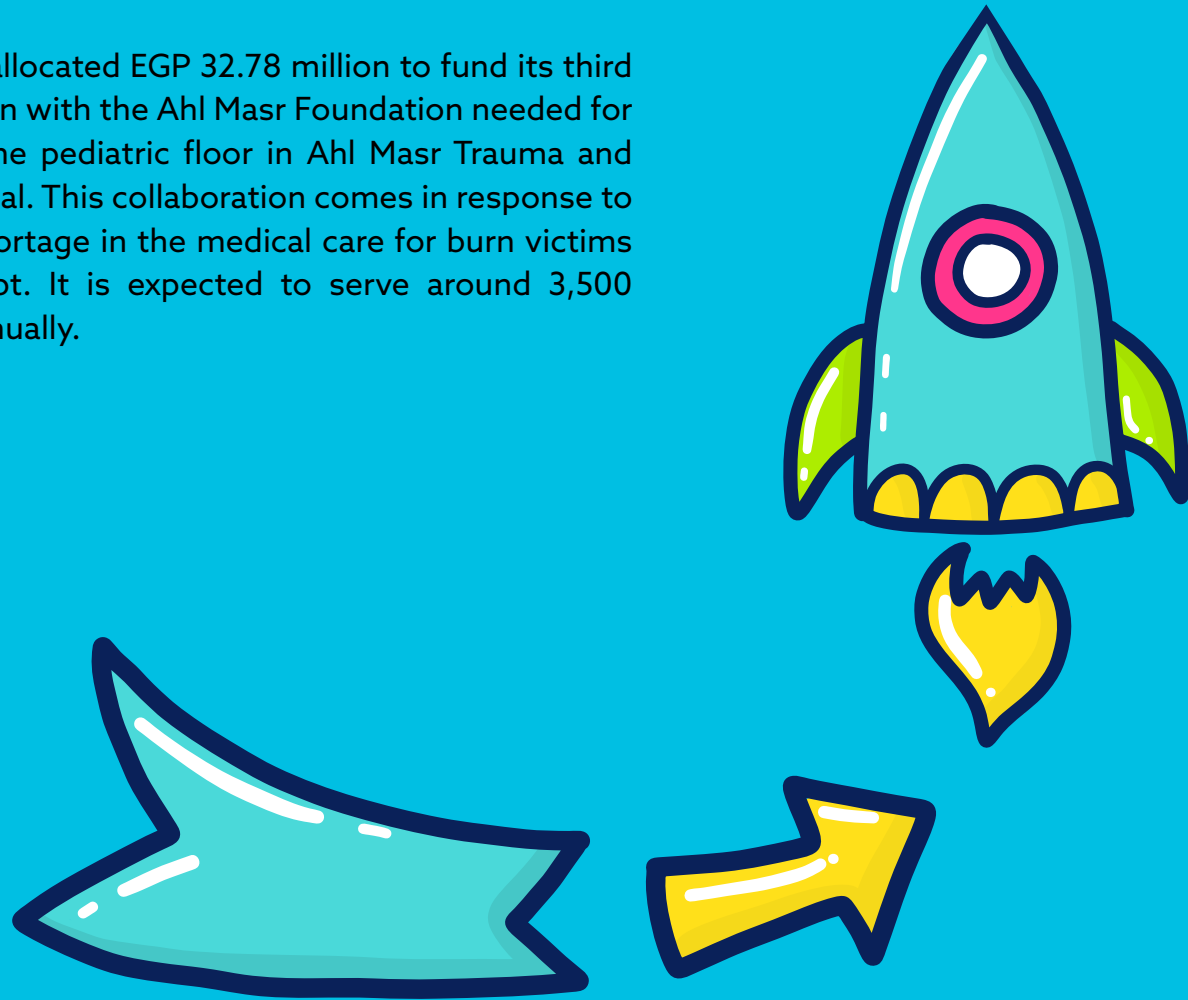

As a part of CIB Foundation's longstanding partnership with Yahiya Arafa Children's Charity Foundation, the Board approved to allocate EGP 5 million to fund the annual operating costs of Ain Shams University Hospital's pediatric congenital heart defect unit, pediatric heart surgery unit, women and obstetrics hospital's neonatal unit, children's hospital's pediatric surgery unit, and the children's hospital's neonatal unit, which will serve 14,500 children annually.

As part of the Foundation's longstanding partnership with the Yahia Arafa Children's Charity Foundation, the Board allocated EGP 6 million to fund the annual operating costs of five pediatric units in the Ain Shams University Hospital, supervised and managed by the Yahia Arafa Children's Charity Foundation. The units are a congenital heart defect unit, pediatric heart surgery unit, women's obstetrics hospital's neonatal unit, children's hospital's pediatric surgery unit, and the children's hospital's neonatal unit. In addition, the Board allocated EGP 3 million to retrofit the depreciated medical equipment in the units.

16. SUPERSTARS ARE BORN FROM SCARS

The Board allocated EGP 32.78 million to fund its third collaboration with the Ahl Masr Foundation needed for outfitting the pediatric floor in Ahl Masr Trauma and Burn Hospital. This collaboration comes in response to a severe shortage in the medical care for burn victims across Egypt. It is expected to serve around 3,500 children annually.

17. NEW CHILDREN'S HOSPITAL IN ALEXANDRIA

CIB Foundation approved EGP 60 million to expand and outfit The New Children's Hospital in Alexandria. The hospital is expected to serve around 1,200 children annually during the first phase reaching its full capacity (3,600 children annually) after two years. The fund was allocated to purchase medical equipment, medical furniture as well as financing the medical finishing and electro-mechanical works. The project will have a direct effect on reducing child mortality of newborns, infants, and children in the Greater Alexandria region and its surrounding governorates.

OPHTHALMOLOGY

18.CHILDREN'S RIGHT TO SIGHT PROGRAM

CIB Foundation allocated EGP 1 million to cover 176 surgeries as part of the Children's Right to Sight (CRTS) program, in collaboration with the Rotary Club of Kasr El Nile, to help eradicate the causes of blindness in children and infants.

19. A VISION TO THE FUTURE

The Board approved a budget of EGP 4.63 million to outfit the pediatric ophthalmic clinic at Alexandria University Hospital, considered to be a center of excellence that serves underprivileged families in the Alexandria and Delta regions. This initiative is expected to benefit 8.75 thousand children each year.

20. FOR A BETTER EYE SIGHT

The board allocated EGP 3.07 million to support the establishing a specialized pediatric eyes center in Memorial Institute for Ophthalmic Research, Giza. The fund will be directed to outfit the outpatient clinics. The project helps in eradicating the causes of blindness in children and infants which is apparent in the Egyptian society. Also, the outpatient clinics in the Pediatric Eyes Center enables the Institute provide specialized services tailored for children as currently they are diagnosed and treated with adults. The specialized center will be able to extend its services to more children from Giza suburban areas, Upper Egypt, and the Delta region. The expected number to benefit from this project is 12 thousand children per year.

SPECIAL NEEDS

21. OUR DIFFERENCES... OUR STRENGTH

In line with the Foundation's commitment to supporting children with special needs, CIB Foundation allocated a budget of EGP 1 million to the National Foundation for Family and Community Development, to outfit the sensory, psychomotor, and occupational therapy rooms in the Asmarat Center to improve the sensory and motor skills of disabled children, especially children with autism, which is expected to serve 250 children annually.

In line with the Foundation's commitment to support children with special needs, CIB Foundation allocated a budget of EGP 6.87 million to establish clinics, rehabilitation centers for cerebral palsy, audio and mental measurement in five rehabilitation centers in Cairo, Giza and Helwan under the umbrella of The National Foundation for Family and Community Development. This project is expected to serve approximately 1 thousand children annually.

22. WE CAN LIVE TOGETHER

In collaboration with the True Light Society Association, which seeks to integrate children with visual disabilities into society, the Foundation allocated EGP 1.23 million to fund the project. The project's integration aims to culturally and athletically assist visually impaired children in their general life needs and to incorporate visually impaired children into the public schooling system. Equipment provided by the Foundation include Braille typewriters and books, visual assistants, school supplies and others. Training programs are also made available for the children and their parents. This project will benefit 470 children with visual impairments.

23. FOR A BETTER LIFE

Building on its longstanding partnership with the MOVE Foundation, the Board approved EGP 1.39 million to cover 50% of the annual operating costs of the Foundation. The operating costs will enable MOVE Foundation to provide free services to 100 children in need. The annual operating costs cover staff salaries, maintenance work, children's transportation, stationery expenses, as well as utility bills.

24. KIDS ON WHEELS

In line with the Foundation's commitment to supporting children with special needs. In April 2019, the Board allocated EGP 4 million to provide 100 children with wheelchairs in cooperation with the Al-Hassan Foundation for Differently Abled Inclusion. These wheelchairs, designed for permanent users, are tailor-made in Germany based on each child's needs. Each wheelchair can serve the child for five years, after which the Foundation may redistribute to other children or make use of the chairs as spare parts.

25. A STEP FOR LIFE

The Board approved EGP 12.8 million in January 2021 to establish a specialized center for psychological, physiological, and social rehabilitation of children with disabilities in Beni Suef University to integrate them in the society, in collaboration with the Awad Charity Foundation. The Outfitting of Rehabilitation Center will include a pediatric rehabilitation unit, a psychomotor room, and an electromyography and ENT units, which are expected to serve 20,000 children annually.

RADIOLOGY & DIAGNOSTICS

26. HEALING HANDS

The Foundation allocated EGP 11.6 million to equip Cairo University Hospitals with a state-of-the-art CT Scanner (128-slices) to detect congenital defects and tumors in the nervous, motor, digestive, urinary and reproductive systems along with examinations of heart arteries. The device is expected to provide scans for 6 thousand children each year.

The CIB Foundation allocated a budget of EGP 290,000 to fund the purchase of an ECG stress test system in Cairo University Hospitals. The system will enable the medical team to better assess the situation of patients and putting the appropriate treatment plan; this will better diagnose and treat children with birth defects, valve diseases, cardiomyopathy, and pulmonary artery hypertension. It will serve 1,500 children annually.

27. A JOURNEY OF HOPE

In collaboration with Nile of Hope Foundation and in the pursuit of establishing a center of excellence in the greater Alexandria region to treat children with congenital defects, CIB Foundation participated in establishing a pediatric radiology department in the hospital by purchasing a Closed MRI Machine (1.5T) with total of EGP 20.30 million. The MRI will assist in detecting and inspecting children congenital anomalies syndrome, a structural or functional defects present at birth that may lead to physical or mental disabilities. This project is expected to scan approximately 4 thousand children annually.

SURGERIES

28. ESTABLISHING A COCHLEAR IMPLANT UNIT

Faculty of Medicine Al-Azhar University (Assuit)

The CIB Foundation allocated EGP 5 million to establish a cochlear implant unit in the Faculty of Medicine - Al-Azhar University in Assuit since the cases that require this type of surgeries are on the rise. In certain cases, the hearing aids do not achieve any results for children with hearing impairment, and the only solution to prevent hearing loss is to perform a cochlear implant surgery. This unit is expected to serve 500 children annually.

29. THE DREAM OF THE SOUTH

The CIB Foundation allocated a total budget of EGP 9.2 million to fund the outfitting of the pediatric neurosurgery department at Aswan University Hospital aiming to establish a center of excellence in Upper Egypt by establishing inpatient care, an intermediate care unit and ICU, which will serve 800 children annually.

30. THE RIGHT TO LIVE UPRIGHT

In collaboration with Assuit University Hospital, CIB Foundation will fund establishing a specialized center in treating children with spine problems and deformities. CIB Foundation allocated EGP 4.48 million to purchase surgical equipment to perform the complex and minimally invasive surgical procedures with the highest quality and precision. This unit will enable the hospital to serve 104 children annually.

31. OUR CHILDREN HEALTH IS PRICELESS

The Board allocated EGP 14.75 million to establish a pediatric surgery unit at the South Valley University Hospital, which serves many governorates in Upper Egypt and the Red Sea. The unit will be equipped with state-of-the-art facilities, including a surgical theatre, a pediatric ward (eight beds), an ICU (two beds), and a diagnostic unit. The hospital, one of few in the region, will work to minimize the risk of traveling for critically ill patients and to increase the capacity of the Emergency and Accidents Department to operate on 600 children instead of 150 each year.

GENERAL PEDIATRICS

32. OUR KIDS OUR FUTURE

The Board approved the allocation of EGP 7.69 million to fund a project in partnership with Ibrahim A. Badran Foundation. 48 convoys will take place in underprivileged areas in Beni Swef, where a team of qualified doctors will lead these convoys to offer examination and treatment to the children in schools and health centers in the area. The project aims to serve 65,000 children.

33. OUR CHILDREN HEALTH "L'MISR" INITIATIVE

Under the umbrella of the presidential initiative (Haya Karima) to support Egyptian children physical and mental health, this initiative aims to raise the level of knowledge and awareness to enable the Egyptian children to become well-capable citizens in the future. CIB Foundation allocated EGP 10.91 million to fund the operating costs of medical convoys which will reach poverty-stricken areas in Al-Waqf, Qena Governorate in 27 elementary schools and 15 middle schools. These medical convoys will provide comprehensive medical services to those underprivileged children in many fields such as: Ophthalmology, General Pediatrics, Anemia and Stunting, Diabetes and others. Furthermore, the convoys will provide the necessary medications, tests and surgeries if needed.

34. HEALTHY CHILDREN

In 2019, the Board allocated EGP 3.38 million to launch two mobile clinics providing comprehensive medical services including pediatrics, ophthalmology and internal medicine to children in remote areas of Upper Egypt in collaboration with Raie Misr Foundation. The clinics will provide the children with checkups as well as medical referrals for specialized cases and medication. The clinics are expected to examine more than 96 thousand children each year.

OTHERS

35. A WARMER WINTER

Building on the fruitful and continuous cooperation between CIB Foundation and Egyptian Clothing Bank, The Board approved a budget of EGP 12.6 million to fund the eighth round of collaboration, which seeks to supply children across all 27 governorates with warm clothing during the winter months. The funding and manufacturing of 70,000 winter training suits and 70,000 pair of shoes will be distributed among children in underprivileged areas across the country.

36. GOING MILES FOR THEIR SMILES

As part of CIB Foundation's mandate to support the children in need, the Board allocated EGP 1.85 million to support the annual operating costs to FACE for Children in Need to cover a part of their medical services and care provided to orphans in Maadi Home Center which hosts 50 children.

37. A BRIDGE OF KNOWLEDGE

The Foundation will fund a five-year education and training program for 150 staff members of the Ain Shams clinical team (including doctors, nurses, and technicians) in partnership with Great Ormond Street Hospital for Children (GOSH) in London. This initiative follows the upgrade of the hospital's facilities and equipment in line with international standards.

Following the program, Ain Shams University Children's Hospital is expected to double its capacity and serve an additional 67 thousand children each year along with enhancing its overall level of care. GOSH is an international center of excellence in pediatric care, globally recognized as one of the few world-class hospitals for children suffering from rare, complex or multiple conditions. The emphasis on education and training is key to the delivery of improved patient outcomes. GOSH train more pediatric specialist doctors than any other center in Europe and have Europe's largest pediatric nurse education program, and will work with Ain Shams University Children's Hospital to deliver bespoke education and training with specific focus on pediatric/neonatal intensive care and hematology/oncology.

38. YASMIN EL SAMRA FOUNDATION

Epidermolysis Bullosa (EB) is a genetic rare skin disease caused by the absence of VII collagen that attaches the skin layers together. This disease causes the skin to be fragile and contains blister. The exact prevalence of (EB) is estimated to effect 1 in 40,000 people. In this regard, CIB Foundation allocated EGP 1 million to support the remedy of EB patients.

39. HEAL A CHILD... CHANGE THE WORLD

The CIB Foundation allocated a total budget of EGP 2.17 million to support the annual operating costs for two residence facility shelters (October and Imbaba) operated and supervised by Abnaa Al Ghad Foundation – Banati. The two shelters provide various types of protection and support for children at risk, including children who spend most of their time in the streets and children deprived from family care, which will serve approximately 200 children annually.
