In 2025, Commercial International Bank (CIB) celebrates 50 years of leadership and resilience, cementing its position as Egypt's largest private-sector bank. The anniversary reflects CIB's legacy of innovation, global trust, and its pioneering role in sustainability—having embraced ESG principles over a decade ago. This year also marks two key milestones: the four year anniversary of Egypt's first corporate Green Bond initiative, and the successful conclusion of a three-year Sustainable Finance Strategy that embedded ESG considerations across the bank's operations. Looking ahead, CIB remains committed to refining its model and future-proofing value creation for the next half-century.

# **ABOUT CIB**

# CIB AT A GLANCE

#### A dynamic long-term strategy

CIB's strategy centers on prudent balance sheet growth and funding optimization, driving long-term value through market share gains, and ESG integration

#### An optimized balance sheet

Over several decades, CIB has carefully worked to earn and leverage the trust of the Egyptian market. This has enabled CIB to construct the largest asset base among its private sector peers, with the Bank enjoying particularly broad institutional footprint.

#### An upgraded funding structure

While historically centered on institutional banking operations, today CIB operates a world class consumer banking franchise, with its 2 million retail clients trusting the Bank with the largest deposit base among private institutions.

## Putting the customer first

The Bank has adopted a customer relationship model that generates the insights and data needed to originate superior financial products tailored to specific client requirements.

#### A focus on digital transformation

CIB's suite of digital services ranges from a world-class online platform to Egypt's most widely used Smart Wallet, yielding the market's highest mobile payment activity rate. In an as-yet cash-dominated economy, around 93% of all transactions executed on CIB platforms are completed using the Bank's digital channels.

## Taking security seriously

CIB's security and governance policies are aligned with international standards and best practices. Launched in 2017, the Bank's Cybersecurity Operations Center is the first function of its kind in the Egyptian market and is responsible for monitoring and responding to cybersecurity threats on an ongoing basis.

#### Identifying and nurturing talents

CIB strives to attract and retain Egypt's best financial talent. The Bank invests heavily in employee education, providing access to some of the finest in-house training programs in the MENA region, and frequently sponsors further education at Egyptian and international institutions.

#### A culture of sound governance

CIB supported by internal and external auditors, the Bank's diverse and highly qualified and diversed Board of Directors works diligently to ensure that CIB develops and implements international best practices in corporate governance, with nine committees governed by well-defined charters that set out the Board's responsibilities.

## **Multiple growth drives**

With 72% of Egyptian adults still unbanked, CIB retains significant room for retail growth as the banking sector and the government renew a push to achieve comprehensive financial inclusion. The Bank will capitalize on its comprehensive suite of physical and digital channels to further refine Egypt's most frictionless banking experience, while reaching ever more communities across the nation. On the institutional front, CIB will leverage its data-driven competitive advantages to continuously grow its market share.

## An expanding footprint

Pioneering Egypt's financial presence on the continent, CIB has already established a toehold in the region, with a representative office in Ethiopia and the acquisition of Kenya's Mayfair Bank, now known as CIB Kenya.
